Children's day was appropriately cele brated in the Methodist Church last Sanday, In the evening the exercises were very pleasing and attentively list-ened to by a large congregation. The programme comprised a number of songs and recitations excellently well rendered by the Sunday school children, short addresses by Rev. F. W. Downs, Super-intendent Harrison Jewell, and pleasing vocal selections by the choir. The altar and chancel were decorated with flowers and presented a bandsome appearance.

Important Ruling.

(Tempe News.) The decision by the secretary of the interior in the timber culture entry of Henry Harper, reported in the last issue capitol will probably be located on Le-York, made a good point in his speech of the Land Owner, will create a fintter gal Tender hill, west of the city, while against the Mills tariff bill in the house among persons who have suspended final the other public building will be scatterproofs in that class of entrys which were ed around promiseuously. made prior to the promulgation of the circular of June 27, 1887. That circular first announced the rule that the eight years of coltivation required in such eatries should be computed from the date when the planting of the required screage of trees, seeds or outlings was completed. The secretary's decision now applies the rule to proofe made prior to the date of that circular, which have not been approved by the Commissioner of the Geeral Land Office.

The above item was handed us by our local attorney. Mr. W. J. Kingsbury, and will no doubt be of serious interest to many of our readers.

Republican Meeting. There was a well attended meeting of Republicans of Gila county, at the Rink on Saturday evening last, for the purpose of reorganizing the County Central Committee, which is now composed time 1.42. of the following named persons; J. R. | Gilman, F. T. Powers, F. W. Westmeyer, D. S. Heron, Geo. Strong, A. E. Love, W. H. Daryes, W. E. Spence, J. H. Pas-coe, J. C. Jones, J. C. Coplin, J. Vineyard, George Allen, A. Bdach, P. Oates and W. O. Kelley.

The meeting adopted the following: RESOLVED. That it is the sentiment of the Republican party of Gila conn'y that our present code is a disgrace to the Territory, and should be repealed at the next session of the Legislature or be so amended as not to be recognized,-Silver Belt.

The report estimates the cost to the government at about \$250,000,000, and you are fidgerty, nervous and generally out of sorts, and want to brace.

Solve There is a solve the same and and thousands of people can tell you. They have been cured by it, and who will is, themselves." Bottle only 75 cents. Ask any druggist.

PHYSICAL STRAIN.

PERILS RESULTING FROM EXCESS OF BODILY ACTIVITY.

danger. It is a case for the application of the Horatian maxim in regard to moderation. Exactly to define the proper mean is an extremely difficult task. We can, however, offer s me suggestions on this point that may prove of use, and we will also touch upon some of the perils resulting from ex-cess. The ancient Greeks have for many centuries supplied the world, among other things, with models of physical culture. The pen ale: their dress was nurestraining, and bey paid great attention to athletic sports and the development and care of the body, bey were, as a people, patterns of manly tel womailly beauty; their average of bealth was high, and their longovity good. The observations made, however, by the cipeively to show that, wherever physical activity was carried to undue excess among

tomous in the case of professional athletes etc.—the invariable result was premature decay and early death. Excessive physical alture during the age of chivalry furnished esame results. Study of the vital statistics England, France and Prussia in modern and races. Perhaps, as regards tenacity of be found in history is the negative testimony furnished by the Jews. This people, since its dispersion, her never in any general, systematin way cuitivated its physique. It has never volunturally borns arms. It has taken inflamed eyes. I was treated but my no share in the athlesic pursuits of the nations among whom it has been placed. It has never exhibited a high physical standard. "Under the operation of Warner's Log Its worst personalisms have, probably, been due, more there any thing else, to its apparent corporeal forbianess. Yet today this race, for tenocity and vitality, probably stands first on curth, and even at this late stage of its history still shows a capacity for producing results in literature, science, art, politics and commerce that ranks with the best. onts standing well both in their studies and athletics. President Eliot has always been stanch friend of physical sports, and himeritage and expired, the claimant will file his affia stanch friend of physical sports, and himself when to college pulled no car in the unican continually use both his physical and etc. nental powers at anything like their full capacity without soon coming to grief. Hu-

A man should decide which half of his proper general balance. If he lives by his rain, let him take physical exercise sufficient quence his brain at their best-but not too much. It he lives by his body, a certain admixture of brain occupation will make him not only a larger, but even actually a physiently healther man. A body worker should use this and every other possible precaution against unine physical strain. In both and popular personally in Washington, and in all cases overwork of the bodily forces that all parties knowing themselves inmust result in serious harm. The outside may The examination of Moses Wertman, on the charge of murdering M. Wahlen, begun on Tuesday before Justice Job Aikins, after the examination of the be fair, and the external appearance all that We have accommodated you a long time seeming soundness and vigor of even the struck by a cyclone by the first of the than it is here, he stands little show of tality has been to sprokinged or too great, or time to produce his witnesses. Mrs. state of the counties of Sonors. Sierra, receiving the nomination at Chipage. when his physical development has been abnormally forced-how suddenly his apparent robustness disappears, and is replaced by morbid conditions, upon any suddenor extra tension of work or emotion. The case of the all conquering but finally foiled Sullivan which has lately attracted so much attention seems clearly one exactly in point;

For the sake of emphasis we again say: In he case of the man of sedentary or brain greats, he should sampley his body only ough to keep it active and vigorous, and new his spiritual faculties bright and keep without taking his reserve of vitality. The object is not to use himself up as fast as pos-uble. It is a wasteful and fatal mistable to keep the entire endowment at high pre-sure. As regards the man employed in bod-ity labor, it is reident within his power to centrol its amount. It may, however, I said that, as soon as he finds the equipoles of his system is being disturbed-a fact which will generally recent itself to him through some pain or footing of strain in somebral ity, the unnatural action of some organ of some extinction somewhere that he recognize as not initiaral or as seen as he fluids the his physical strength is gradually lessening he may know that he has passed the limit, built mean, by systematic and severe physi-cal competition—such as either calls for the exertion of sublen and tremendous force or for probaged andurance, as occurs in priz races, etc. is physiologically unsafe, ar

from the standpoint of health and longevit should be abelished. The slanger in physical overwork is princi-pally to these portions of the besty which are concerned in the involuntary acts of lifebut is to say, to the muscles and nervous ap the parts serverely affected, nil the other pos-tions of our exception bodies which depend upon it or them suffer also thenerally, the heart fails first, and, of all vital organs, it ruin so vital as this has taken place, deals cannot be just off.—Besten Hernid.

Covered with Sores Cured by the Cutlours Remedies Mesers. STEVENS & BRUNES. Montoe. N. C.

DEAR SERS. About two months ago, on your recommendation, I bought a bottle of CUTICERA RESOLVENT, one bor CUTICERA BLANK. and one cake of CUTICERA. Soar, for my son aged thirteen passe, who has been afflicted with externs for a long time, and I am pleased to say that I believe the remedies have cured him. His suffering wate intense, his head being nearly raw his ears being gone except the griefle, and his body was covered with sers. His condition was frightful to behald. The sores have now all disappeased, his skin is healthy, eyes bright, these in in disposition, and is working every lay. My neighbors are witnesses to this remarkable cure, and the doubting ones are requested to call or write me, or any of my neighbors.
